SUMMARY

Passionate about crafting intuitive user experiences. Proficient in Figma, I blend technical proficiency with design sensibility to create impactful solutions.I am deeply interested in engaging with people to gain insights from customers, leveraging these insights to inform my designs. Furthermore, I am eager to utilize my performance testing expertise to translate designs seamlessly to developers and testers, ensuring optimal user experiences throughout the development process

EDUCATION

Saranathan College of Engineering
Bachelor's Degree in Computer Science with 89.4%
Aug 2018 – Jun 2022

CERTIFICATIONS

Completed Getting Started as a Business Analyst LinkedIn Learning Path
Completed a comprehensive course program covering essential skills for business analyst.

Successfully completed the UI/UX Design Essentials course on Udemy, focusing on Figma.

Complete Web & Mobile Designer in 2021: UI/UX,Figma, +more
Successfully completed the "Complete Web & Mobile Designer in 2021: UI/UX, Figma, +more" course, mastering Figma, prototyping, wireframing, icon design, and logo design concepts.

PERSONAL PROJECT

I-Grow Support App:
- *Conceptualized and designed an emotional support app design on Figma.*
- *Enabled anonymous connections with trusted contacts.*
- *Incorporated phone/video call options for user discussions.*

WhatsApp UI Clone:
- *Designed fingerprint lock, chat updates, call UI, and settings pop-up pages.*
- *Linked pages for seamless user experience.*

ACHIEVEMENTS

Guinness World Record (26 Feb 2016)
Contributed to the creation of the largest colored water mosaic.

PROFESSIONAL EXPERIENCE

Performance Tester
Tata Consultancy Services | Jul 2022 - Present

- **Established Seamless Stakeholder Communication Channels**: Implemented clear and efficient communication protocols through emails, stakeholder meetings, and cross-functional engagements, fostering alignment across internal and external stakeholders.
- **Mastered Requirements Gathering**: Expert in client-centric requirements gathering for comprehensive project understanding.
- **Experienced in Full Project Lifecycle**: Proficient in navigating end-to-end project cycles for seamless delivery.
- **Continuous Learning and Skill Development**: Committed to ongoing improvement, enhancing project outcomes.
- **Conducted JMeter Performance Tests on AWS**: Utilized JMeter for AWS testing, ensuring application scalability.
- **Executed Tests on Putty for Linux System Analysis**: Analyzed Linux systems on Putty for optimal performance.
- **Generated Concise Performance Reports**: Provided stakeholders with actionable insights through performance reports.
- **Proficient in JMeter Scripting**: Mastered JMeter scripting for reliable and accurate performance assessments.

TECHNICAL SKILLS

- Skilled in **UI/UX** design principles and tools, including **Figma**, to create intuitive and visually appealing user interfaces.
- Proficient in HTML and CSS for front-end web development, ensuring responsive and visually engaging web experiences.
- Proficient in **Java programming** for backend development and application logic.
- Experienced in utilizing **JMeter** for performance testing and analysis of web applications.
- Proficient in **Microsoft applications**, including **Excel** for data analysis and **PowerPoint** for creating impactful presentations.
